

PROJECT STATUS REPORT

Project Name Tailored Diet

Blurb

The UN Goal: Goal 3 - Good Health and Well-Being.

The sub-goals:

3.4. By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being.

3.8. Achieve universal health coverage, including financial risk protection, access to quality essential health-care services and access to safe, effective, quality and affordable essential medicines and vaccines for all

From research, there is currently no one platform that provides diet plans for specific health issues. What can be seen are platforms just for weight gain and loss.

This is why Tailored Diet is aimed at providing access to platform that offers a well organized diet plan tailored for specific health issues, that also correlates to medications, and also provides the platform that caters to patients battling with health stigma.

For Week Ending March 7, 2021
